Food Logistics Announces its 2013 Top 100 3PL & Cold Storage Providers

Fort Atkinson, WI — August 16, 2013 — *Food Logistics*, the only publication dedicated exclusively to the food and beverage supply chain, this week announced the 2013 list of companies chosen for the *Top 100 3PL & Cold Storage Providers*.

The *Top 100 3PL & Cold Storage Providers* serves as a resource directory of third-party logistics and cold storage providers whose products and services are critical for companies in the food and beverage supply chain, from food growers, producers and manufacturers to retail grocers, convenience markets and others.

“This year’s list reflects the growing diversity of 3PLs and cold storage providers operating in the food supply chain, who are adapting to changing demands from their customers and end consumers alike. Food safety and security is one such demand, as are energy efficiency and controlling costs,” noted Lara L. Sowinski, editor-in-chief at *Food Logistics*. “Whether the 3PL or cold storage provider is a small, specialized player or one with international reach and resources, the companies we’ve included for 2013 share a commitment to providing measureable value and industry expertise to their customers.”

Companies on this year’s *Top 100 3PL & Cold Storage Providers* list will be profiled in the August 2013 issue of *Food Logistics*, as well as online at www.foodlogistics.com.
